INDEX TO VOLUME XLVII, 1935

PAGE

Activated Tank Method of Anti-Rolling Stabilization of Ships, Problems of, by Dr. Nicholas Minorsky 87
Adams, Robert C., Jr., Results from the Change in the Navy's Method of Boiler-Water Treatment 75
Aeronautical Engineering (Note) 160
Air, Excess, Determination of Per Cent and Per Cent Theoretical Oxygen Accompanying Per Cent CO_2 in the Flue Gases When Firing Any Fuel Oil, Charts for, by Samuel Letvin 266
Air Compressors, High Pressure, Method of Testing, by R. L. Dennison 1
Air Heaters and Economizers for Marine Service, by T. B. Stillman 171
Alloy, Non-Ferrous (Note) 163
Anchor Windlass, Diesel-Engined (Note) 313
Anti-Aircraft Batteries, Increasing (Note) 648
Anti-Rolling Stabilization of Ships by the Activated Tank Method, Problems of, by Dr. Nicholas Minorsky 87
Asbestos for Electrical Purposes, by C. Huey 543
Association Notes 168, 332, 497, 662
Atkins, L. M., The Manufacture of Marine Propellers 229
Balancing Propulsion Shafting, by Richard H. Tingey 14
Boiler Feedwater (Note) 153
Boiler Operator, What Every Operator Should Know About Superheaters (Note) 467
Boiler-Water, Results from the Change in the Navy's Method of Treatment of, by Robert C. Adams, Jr. 75
Briggs, Charles W., Suggested Improvements in Purchase Requirements for Important Steel Castings 532
Bulletin on Survey of the Engineering Profession (Note) 120
Capital Ships of the Future (Note) 646
Cassey, T. E., Illumination on Naval Vessels 499
Catapults, North Atlantic (Note) 164
Cavitation, Propeller, Studies (Note) 123
Chemistry, Lange's Handbook of, Book Review 167
Compass, The Mariner's, by John M. L. Gorett 220
Compressors, Air, High Pressure, Method of Testing, by R. L. Dennison 1
Corrosion, Abstract of the Problem of (Note) 323
Corrosion, Galvanic (Note) 323
Corrosion Problems of the Naval Architect (Note) 462

PAGE

Corrugated and Creased-Bend Piping, Strength and Flexibility of, by Robert L. Dennison ... 343
Cost of Motor Ships and Steamships, Comparative (Note) ... 142
Cruisers, Light (Note) ... 270
Dennison, R. L., Method of Testing High-Pressure Air Compressors 1
Strength and Flexibility of Corrugated and Creased-Bend Piping ... 343
Destroyer Design, Trend of (Note) ... 444
Destroyer, Future of (Note) ... 270
Diesel Progress (Note) ... 158
Economizers and Air Heaters for Marine Service, by T. B. Stillman ... 171
Electric Propulsion Systems (Note) ... 142
Electrical Polarities, Table of, Discussion by the Secretary (Note) ... 325
E.M.F. Between Metals in Seawater (Note) ... 325
Europa, Motorship—Four Years of Service (Note) ... 275
Fire at Sea, Preventable (Note) ... 138
Fittings, Soldered, The Navy's, by Mason S. Noyes ... 57
Fuel Consumption and Maintenance Costs of Marine Engines (Note) ... 306
Fuel, Engine, Tar Oil as (Note) ... 283
Fuel Oil, Charts for the Determination of Per Cent Excess Air and Per Cent Theoretical Oxygen Accompanying Per Cent CO_2 in the Fuel Gases When Firing, by Samuel Letvin ... 266
Fuel Oil, Short History of Naval Use of, Part III, by James E. Hamilton ... 36
Fuel Oil Heater Performance, Graphical Means of Checking, by R. L. Hicks and H. E. Bethun ... 25
Fuel Oils, Cracked Residue, Burning of (Note) ... 487
Fusion-Welded Pressure Vessels, Stress Relief of (Note) ... 441
Gas Bombardment, Protection Against (Note) ... 315
Gas Warfare (Note) ... 619
Gases, Flue, Determination of Per Cent Excess Air and Per Cent Theoretical Oxygen Accompanying Per Cent CO_2 in When Firing Any Fuel Oil, Charts for, by Samuel Letvin ... 266
Gorett, John M. L., The Mariner's Compass ... 220
Gurley, Ralph R., and W. P. Sinclair; Pipe Covering Materials for High Temperatures ... 247
Halligan, Rear Admiral, Obituary ... 165
Hamilton, James E., A Short History of the Naval Use of Fuel Oil, Part III ... 36
Heater, Fuel Oil, Graphical Means of Checking Performance, by R. L. Hicks and H. E. Bethun ... 25
Hicks, R. L., and H. E. Bethun, Graphical Means of Checking Fuel Oil Heater Performance ... 25
High-Pressure Steam and Geared Turbines, World Trend Is Toward (Note) ... 627
